

Dilim

Designed by Gernot Oberfell, Jan Wertel

KOLEKSİYON

Your office habitat may
re-create your working habits.
Now, it's time to
re-work your office.

Dilim is a modular sofa or single chair designed for offices, bars, hotels and waiting areas, and is offered in a way that allows designers to explore the available combinations of coloured fabrics.

Dilim sofa can satisfy different demands with the different sizes and options it presents. The back-to-back version, for example, might be used in offices or various waiting areas, or matched in with other furniture systems.

The high-back version can be used to create a cellular environment for meetings and working or for reading and resting within common areas. The upholstered surface of the high back sofa assists in helping to isolate noise which might otherwise be a critical problem in open office layouts.

Technical Specifications

Dilim

Materials & Finishes

- Frame of all types are from metal and in combined way through the use of 20x20x1.2 mm (0.8x0.8x0.05 inch) and 15x15x1.2 mm (0.6x0.6x0.05 inch) box profiles. In order to fix the covers, laths are screwed onto the case. For the cases, anti-corrosive and anti-rust paint are used. In order to have a smooth surface, case is coated with 3 mm (0.1 inch) MDF.

- In order to have comfort for sitting, seats are covered with 5 cm (2 inch) 34d hr sponge on 2 cm (0.8 inch) 22 d gray sponge and backs are covered with 5 cm (2 inch) 34d hr sponge with bowing application on the seat and back through the use of 150 gr (0.3 lbs) fiber, and covered with 150 gr (0.3 lbs) fiber and fixed. For other external sections, 5 mm (2 inch) 32 d gray sponge is used and cnc sponge is used in order to have necessary form on the upper back sections of all the types. The fabric is sewed onto whitened case suitably according to divisions of cover modules.

- In order to upholster the cases, zip is used for the lower edges of the seat.

- Sofa cases in this group are manufactured as a fixed system.

Fastening elements

- 3 mm (0.1 inch) MDF is fixed onto the case with staple.

- Special upholstery adhesive is used for covering sponge onto the case.

- Plastic feet are connected to case with screws.

- For the connections of armrest modules clamps and connection elements are used.
