

# URBAN STORAGE

## Description

Urban Storage, designed by HOLMRIS in 2014, is a modern and flexible collection of beautiful storage units in many different shapes and sizes. Urban Storage is characterized by its spaciousness combined with a light appearance – it makes room for tidying away without taking up a lot of space.

Urban Storage proves that Scandinavian simplicity is elegant and sophisticated. The different storage units are equipped with sleek steel handles that add to its sleek, minimalistic look. Also, there are many different options to choose from in terms of the height of the storage unit, based on how many shelves are needed.

HOLMRIS provides lots of flexibility with this collection, allowing you to build a storage unit that fits your exact needs. All HOLMRIS furniture is produced and designed in Denmark to ensure the highest possible quality.
